ICE FISHING ROD SET LUCKY JOHN BALANCED LURE SET

The winter rod set includes rod, line and balanced lure. The set created for catching medium-sized predatory fish. The very lightweight one section rod comes with the Lucky John MGC line (0,16 mm diameter; 30 m) and the popular Lucky John balanced lure CLASSIC 4, color 12HRT. The blank of the graphite rod is highly sensitive, and you will feel even a slightest bite. The catchy model of the balanced lure will ensure the maximum of bites, and the reliable fishing line will allow you to fish without worrying about annoying breaks. An excellent choice for both — beginners and experienced anglers.

LUCKY JOHN BALANCED LURE

BALANCED LURES OF LUCKY JOHN TRADEMARK HAVE ALREADY WON POPULARITY AMONG THE BEST ICE LURES IN MANY COUNTRIES ACROSS THE WORLD. THEY HAVE SHOWN THEMSELVES TO THE BEST ADVANTAGE ACCORDING TO MANY ANGLERS. CURRENTLY THE LUCKY JOHN BALANCED LURES RESEMBLE NATURAL PREY ITEMS – THE FRY SO MUCH THAT BITE IS VIRTUALLY GUARANTEED AT ANY TIME, IRRESPECTIVE OF ACTIVITY OF FISH. AN IDEAL GAME OF THE LURE, IMITATING AN ESCAPING FRY, ALLOWS NOT ONLY LURING A PREDATOR IMMEDIATELY UNDER THE HOLE, BUT ALSO ATTRACTING IT FROM A LONGER DISTANCE. BESIDES, THE EXCELLENT BALANCING OF THE LURE ALLOWS HARVESTING A MAXIMUM LARGE WATER AREA UNDER THE HOLE. SEVERAL MODELS, RICH VARIETY OF COLOURS AND SIZES ALLOW MATCHING NECESSARY LURE IN ORDER TO CATCH MORE FISH AND TO ENJOY FISHING AS MUCH AS POSSIBLE! LUCKY JOHN BALANCED LURES MODEL CLASSIC AND FIN ARE EQUIPPED WITH STRONG AND SHARP KAMASAN HOOKS.

BALANCED LURES LUCKY JOHN NORDIC

NORDIC is heavy, compact, ideally Balanced lure, specially designed for the deep-water lakes and rivers with a fairly strong currents. The lure is available in three sizes -50, 65, 70 mm and accordingly -12, 21 and 36 g weight. Classic form of the lure looks like a small fish and therefore attracts the attention of a predator.

BALANCED LURE LUCKY JOHN BALTIC

The Lucky John Baltic is a compact, weighted jigging minnow designed to fish at depths, with or without current. Available in 40 mm, 53 mm and 63 mm sizes, these three models weigh 10 grams, 22 grams, and 46 grams respectively; the smaller size Baltic has been a go to perch bait for anglers worldwide, with the larger models being a particular favored lure for deep water walleyes. The Baltic is available in clear or red options for the rear tail stabilizer, and are also available in attention grabbing holographic patterns that stand out in deep or stained water. The fierce "samurai" detailed finish is augmented by Japanese Kamasan hooks front and back, along with a sticky sharp beaded VMC hook on the bottom.

BALANCED LURES LUCKY JOHN FIN

The FIN balanced lures have a flatter body in section than the CLASSIC model. Therefore the "Fins" harvest a larger underwater area. The FIN lures come in three sizes, out of which you can easily pick up a necessary size for fishing a perch, a pike or a pike-perch, as well for different levels of luminosity under water. All lures are individually packed and come completed with treble hook and coloured drops.

BALANCED LURES LUCKY JOHN CLASSIC

The most popular model among anglers. A hard tail of the lure makes the lure a wider and quicker play. During stirring of the predators you can achieve the best results thanks to these lures. Please note, there are two colours of the tail available in assortment — red and transparent. All lures are individually packed, irrespective of the size, they come completed with a treble hook with a coloured drop.

LUCKY JOHN OSSA

The Ossa represents a new twist on the jigging minnow concept combining elements of both vertical and horizontal presentation, aimed at replicating the actions of a fleeing baitfish. The unique action of the Ossa is created by the fishing line through the body of the lure, rather than the typical attach points at either the mouth or "dorsal fin" of the traditional jigging minnow. The Ossa features a quality Japanese hook finished off with natural wool fibers for a realistic swimming action. The Ossa comes in 40 mm, 50 mm and 60 mm sizes, weighing 10 grams, 15 grams and 27 grams respectively; this size selection makes the Ossa a perfect choice for perch, walleyed pike, and northern pike.

NORFIN

BASARA VIII

WOBBLER LUCKY JOHN PRO SERIES BASARA VIB S

These sinking plastic wobblers are effective for fishing large predators, especially pike perch. When pulling, the wobbler vibrates and attracts predators from a large distance.

Depending on the fixation place of the fastener the game of the bait will be slightly different. Basara VIB may be used for different fishing techniques and in various waters. The lure has quality Japanese fittings, and it is available in one size -90 mm.

ITEM NO.	COLOUR (****)	WEIGHT (G)	LENGTH (MM)	Q-TY IN A PACK (PCS.)

WOBBLER

LUCKY JOHN PRO SERIES VIB

Lucky John VIB – vibrating jigging lure initially profiled for open water fishing but in recent years with great success, has become popular for ice fishing as a lure without acoustic effect.

The VIB's balanced weight system is key to its unique vibration, and with a smooth pull the lure begins to vibrate, imitating prey and attracting predators from long distances. Then, with a steady drop, the lure swims and darts like wounded prey triggering crushing strikes.

VERTICAL LURE WITH TREBLE HOOK

LUCKY JOHN "GLIDER"

CS; GS; GC

101-3-**

This lure will be helpful for angling of large perch and other predatory fish from great depths. In case of poor biting, try putting a small hatchling on the hook.

VERTICAL LURE WITH TREBLE HOOK

LUCKY JOHN "WING"

A lure for angling of active predatory fish: pike, pike perch and large perch. Allows using it at great depths and in water bodies with low current.

VERTICAL LURE WITH CHAIN AND HOOK LUCKY JOHN "S-3-Z"

ind. pack

10

VERTICAL LURE WITH A TREBLE HOOK LUCKY JOHN FIN "MODEL A/MODEL B"

Vertical blinkers with a bright bead imitation of an eye making them more alluring to predatory fish: perch, Pike perch and Pike. Heavy blinkers allow for fishing in comparatively deep water areas and in strream. Three sizes, two colours, fitted with a pendent treble hook VMC.

LUCKY JOHN DOUBLE BLADE 45/55/65

VERICAL LURES WINTER LUCKY JOHN «PEIP»

WINTER SOFT LURES LUCKY JOHN

ARTIFICIAL BLOODWORM LUCKY JOHN EXTRA BLOOD WORM PACKAGE

Artificial bloodworm Lucky John Extra Blood Worm with its bright colour, long-lasting scent and flavour attracts the fish no worse than the real one. During winter, while passing from one ice-hole to another, the artificial bloodworm not only will not freeze (as would real bloodworm), but also will wag its tail just as lively even after repeatedly being swallowed by a fish.

ARTIFICIAL MAGGOT LUCKY JOHN MAGGOT PACKAGE

Artificial maggot Lucky John Maggot – excellent flavour and scent close to real. It has a number of advantages in comparison to the real maggot: it surpasses the real maggot in attractiveness, does not freeze at low temperatures, holds on a hook for a much longer time, does not pupate, has unlimited shelf life and is always at hand while fishing.

LUCKY JOHN BEADED TREBLES

ULTIMATE PROTECTION

CLOTHING

NORFIN is a brand offering clothing and footwear, giving guarantee of comfort and modern look. Through the years **NORFIN** has accumulated experience, especially in production of clothing for fishing and angling. Our clothing is developed by professionals of clothing manufacturing, but with great involvement and advice from anglers, making sure that

the necessary attention is paid to all essential aspects. **NORFIN** uses the latest materials and designs to make you enjoy your fishing experience without any worries about weather conditions — hot or chilly, rain or sun — **NORFIN** will give you Ultimate Protection!

LAYER SYSTEM

When you are fishing and it is probably the catch of your lifetime, we don't want even the smallest inconvenience to ruin it. That's why we make practical and functional clothing for anglers which will keep you warm in all conditions. Fishing can be a combination of active movement or long and patient waiting, so the clothing must be also universal or suitable for the activity. **NORFIN** clothing can be divided in layers with different functions – all this we call **NORFIN LAYER SYSTEM**.

Each layer of clothing serves its own special purpose.

- 1. Basic layer draws moisture away from the body.
- Warming layer ensures warmth and insulation without hindering your movements.
- 3. Additional warming layer keeps you warm when you don't move.
- Protective layer protects you from wind and the effects of weather conditions.

MATERIALS AND TECHNOLOGIES

In comparison to the majority of materials used to manufacture outwear, this modern multiplelayer fabric has improved breathability. Specially designed fibres not only retain body warmth, but also draw moisture to the outside. Your clothing breath, which makes them extremely comfortable and pleasant to wear. The fabric wicks moisture off the body and prevents sweating, at the same time retaining all thermal insulating qualities of the fabric. The moisture is drawn out through the upper layers of fabric. Extra strong NORTEX BREATHABLE material is water-resistant and ensures the long life of the clothing made with it.

HOLLOFIL - Hign technology insulation with hollow fibers developed by company DuPont.

NORFIN SILENT MATERIAL - Specially designed to disguise your appearance, NORFIN SILENT MATERIAL fabrics are practically noiseless, ensuring great freedom of movement.

CONVERT ROLL - sleeves and lower part of pants can be rolled up and fixed.

UV PROTECTION

Ultraviolet protection indicator.

WINDPROOF - Material with P11 membrane protects you against wind, cold and rain, at the same time letting your body breathe as excess moisture is drawn out through the material.

THERMO GUARD - High quality, synthetic insulation made of polyester microfibers, which trap the warm air close to your body, providing you with warmth and doesn't absorb moisture. THERMO GUARD insulation doesn't cause allergic reactions.

COTTON - The main benefits of Cotton are its natural quality and high breathability. Cotton is also highly durable. It absorbs moisture perfectly, which can be very useful for a hot midday when you can refresh yourself by wetting your clothing with fresh water.

NORFIN DRY - The process implies wicking moisture from the body to the surface of the material in hot weather. The moisture quickly evaporates from the surface of material, thus refreshing the body and improving comfort.

NORFIN VENT - Additional ventilation in the underarms and (or) back area.

CONVERT ZIPPER - sleeves and the lower part of pants are attached by a zipper.

NORFLEECE - material designed to ensure maximal comfort in cold - weather conditions. Its super - lightweight provides excellent mobility, and breathable, high quality insulating fabrics perfectly regulate your core temperature, reducing the possibility of overheating or freezing.

NORFLEECE DRY

- · Best moisture management
- · Two layer material

WINTER BOOTS NORFIN ELEMENT

Winter boots made of EVA material with removable insole ensure continuous thermal protection at temperatures as low as -30 °C. Rich in micro bubbles (foam rubber), the material has perfect thermal insulation ability and is lightweight. The boots weigh 30–40% less than their rubber or PVC counterparts.

- Boot made out of super light and durable EVA material
 Thick outsole to provide best thermal insulation
 Removable inlet from Polyester material

WINTER BOOTS NORFIN KLONDAIK 2

Winter boots made of EVA material with removable insole. Thanks to the thick and warm insole and EVA (foam rubber) material, boots can be comfortably used at temperatures as low as -40° C.

ANTI-SLIP DUO system – two retractable ice cleats for added safety and protection. Cleats are made of durable stainless steel which prolongs there use in various weather conditions.

Triple 10 mm thick insole provides thermal insulation:

- Inner Thinsulate[™] layer provides thermal insulation and absorbs and wicks away moisture.
- Heat reflecting aluminum foil keeps cold away and keeps body heat to the foot
- External layer of polyester provides required insulation and wicks moisture from the insole.

Material: EVA, Rubber Insulation: THINSULATE

WINTER BOOTS NORFIN AVALANCHE

Warm and comfortable, lightweight winter boots made of EVA material with rubber sole, feature a high quality synthetic material insulation. You can use these functional boots in temperatures up to -40C

Three layer, 10mm thick liner ensures reliable thermal insulation:

- 200g Synthetic felt layer ensures thermal insulation and absorbs moisture
- Foil reflects cold air and keeps the warm air inside
- Fleece holds the warm air and ensures thermal insulation
- Abrasion resistant nylon upper
- · Adjustable snow collar

Materials: Outsole: EVA, Rubber, Upper: 1200 D Nylon Insulation: Polyester, foil

TABLE FOR DETERMINING THE SIZE OF NORFIN GARMENTS FOR KIDS

Age:	10–11	11–12	12–13	13–14	14–15
Height:	146	152	158	164	170
Α	75	78	81	84	87
В	67	70	72	75	77
С	79	82	85	88	91
D	68	71	74	77	80
F	53	55	57	59	61

TABLE FOR DETERMINING THE SIZE OF NORFIN HEADWEAR

International size:	L	XL	
Head circumference	58–59	60–61	
Headwear size	58–59	60–61	

TABLE FOR DETERMINING THE SIZE OF GLOVES AND MITTS

International size:	L	XL	
Palm circumference (inch)	9	10	
Palm circumference (cm)	23	25	

WATERPROOFNESS OF NORFIN WEAR

Nº	Characteristics of precipitation	Index (mm).
1	Light rain, duration 10–20 minutes	1000–2000
2	Light rain, duration up to 2—3 hours	2000–4000
3	Rain, duration up to 4 hours or drizzling all day	4000-8000
4	Long rain	Over 8000

COMPLIANCE OF PHYSICAL LOAD WITH INDICES OF "BREATHABILITY" OF NORFIN WEAR

NUF	IFIN WEAK	
Nº	Physical load during fishing	Index (g/sq.m/24h)
1	Static angling of fish from the ice on one spot without active search of fish	2000–4000
2	Angling of fish from the ice in combination with active search and ice-hole drilling	4000-8000
3	Walking movement from the ice with snow, active ice-hole drilling, participation in competitions	Over 8000
